### WCPS Elementary at-home Choice Board

**Math**
- Count Around You! Walk outside or inside and practice counting things like windows, doors, trees, rocks, silverware, and more!
- Find a bag and collect items to go in it that relate to a story you have read. If you can’t find an item, draw a picture to put in your bag.
- Keep a record of the weather every day this week. Record the temperature (high and low), describe the weather (sunny, cloudy, rainy, windy, etc.), and draw a picture.
- Make a musical instrument out of household items. It could be a drum, a string instrument, a cymbal, or a tambourine-like instrument, etc.
- Create a new form of tag to play outside with your family (when the weather is nice). Create your own rules and play for 20 minutes or more!

**Reading/Writing**
- Find a shape. Create a creation.
- Draw shapes on a piece of paper. Find these shapes inside or outside. Each time you find a shape, make a tally next to that shape on the paper. How many can you find?
- Pick two of your favorite stories. Make a list of ways that the stories are similar, and a list of how they are different! Tell a family member about your lists!
- Make a list of all the electrical items in your home. Can you come up with ideas to use less electricity? Decide which actions you can take this week to conserve electricity.
- Design a 5-panel comic strip illustrating something funny that happened in your house recently! Draw your family or create new characters!
- Create an obstacle course inside or outside. Try to go through your obstacle course at least three times in a row.

**Science/SS**
- Draw a map of your home, neighborhood, or local area. Create a key or legend to identify or highlight interesting landmarks.
- Find an old sock and create a puppet. Create a sock puppet family and put on a puppet show!
- Find a bag and collect items to go in it that relate to a story you have read. If you can’t find an item, draw a picture to put in your bag.
- Make a list of as many vegetables you and your family can think of. Draw pictures next to the ones that you have eaten!
- Write a rap or a song about healthy foods. Write about the healthy foods you like, or the ones you don’t like yet!

**Art & Music**
- Grab a hanger, string, and household objects to create a balanced mobile.
- Build a reading den! Find somewhere cozy, snuggle up and read your favorite book. Or create a reading fort with blankets!
- Create a comic strip illustrating something funny that happened in your house recently! Draw your family or create new characters!
- Design a 5-panel comic strip illustrating something funny that happened in your house recently! Draw your family or create new characters!
- Write a thank-you note to a hero in your community that has helped you and the larger community. Focus your note of thanks on their roles and responsibilities in the community.
- Write a rap or a song about healthy foods. Write about the healthy foods you like, or the ones you don’t like yet!

**PE/Health**
- Draw a picture using at least 8 mathematical shapes. Create a landscape, an animal, or an imaginary creation.
- Write a thank-you note to a hero in your community that has helped you and the larger community. Focus your note of thanks on their roles and responsibilities in the community.
- Use an empty toilet paper tube to create a new invention. Draw it, color it, fold it, whatever, to create a new invention. Describe what it can do or what problem it solves!
- Write a rap or a song about healthy foods. Write about the healthy foods you like, or the ones you don’t like yet!

---

**How many of these non-computer activities can you do this week?**

**Can you complete ALL of the activities?**

**Challenge your family members & friends (virtually!) to see who can do the most!**

WCPS Students,
We miss you and hope to see you soon! We hope you are reading a lot, practicing math, being inquisitive and creative, and getting lots of exercise!
